

Case Flipper System

EMERALD
AUTOMATION

International Automation & Innovation

The **Case Flipper System** was designed and built to rotate sealed cases 180 degrees to the proper orientation. It can be used on Automated Packaging Lines that utilize existing live roller style conveyors. It can also be supplied with an attached conveyor. This system also has an option enabling to be pulled in/out of service rapidly.

Emerald Automation integrates a diverse yet practical approach to machinery design to provide rugged construction complemented with state-of-the-art technologies. Whether it's developing a machine to supply a new market, or rebuilding existing machines with new technology, we will work to provide our customers with solutions that meet their individual needs.

MISSION STATEMENT

Emerald Automation aspires to provide uncompromised products for today's most demanding packaging and automation for local, domestic and international manufacturers and processors. We have an unrivaled approach to turning concepts into innovative solutions - whether it is for an entire system, a single machine or just a bottleneck in the production line. We deliver exceptional results by using simple, efficient and cost effective methods that are client focused.
